YACHT CAPTAIN

Tomislav Lončarić

Growing up in continental Zagreb, he enjoyed the sea only for those two weeks of family vacation. However, it was love at first wave, and he decided early on that it should be more than that — so he made it his career.

He has sailed professionally on all kinds of yachts in the Mediterranean, with the Croatian coast being his specialty. Ten years later, he still loves it when his guests ask: "Where do we set sail next?"
